allow us to meet each and every customer needs.**

**We use over 200 different recipes and have a high production capacity.**

# DENTAL STICKS

all about dental care

Caring for your dog's teeth is crucial, with around 85% experiencing dental issues by age three.

Our dental sticks are specially formulated for rigorous chewing and help clean your dog's teeth while they enjoy the flavour.

# SNACKS AND BITES

The Power of Positive Reinforcement Through Treats

Utilizing food as a form of positive reinforcement is among the most favoured training techniques. Although it's important not to overuse this method, when applied correctly, it can help dogs become more adaptable, creative, and intelligent. Properly using treats can significantly boost a dog's cognitive skills.

We provide an extensive variety of shapes, ingredients, and flavours. Treat your dogs to something special; they truly deserve it!
